Type/paste one sentence and press Enter

We both had similar reasons to leave our country.
We both are from the same country.
We are from different countries.
```

Without understanding the meaning of the input sentence
"We both had similar reasons to leave our country,"
it is not possible to make the logical conclusions that we
both are from the same country we left or we both left
different countries. The meaning of leave, as immigrate,
in this case is implicitly understood.

Type/paste a few sentences and press Enter

The Stones ate a frank for lunch.
The Stones ate a sausage for lunch.
The stones ate a frank for lunch.
The sentence has no meaning, stones cannot eat.
The stones ate a sausage for lunch.
```

Without understanding the meaning of the input sentences
"The Stones ate a frank for lunch."
"The stones ate a frank for lunch."
It is not possible to understand that family Stones ate a sausage and that stones cannot eat.

```

The Borrower shall not merge into or consolidate with any person or permit any person to merge.
Borrower shall not merge into or borrower shall not consolidate with any person or borrower shall not permit any person to merge.
```

Without understanding the meaning of the input sentences
it would not be possible that a Machine understands that it is the borrower that shall not consolidate, shall not permit.

```
DIALOGUE English chatbot, a Dialogue Question Answering System
With Automated Reasoning in Natural Language Patent U.S.8560305M1.
Providing probable and accurate answers to user questions.
Vers. 3.0, Copyright © since 2011 LANGSOFT - Switzerland
Type or paste a sentence to ask me or tell me and press Enter

Mary enjoyed the book.
Yes, Mary enjoyed both.
What other written material Mary enjoyed to read?
```

Without understanding the meaning of the input sentences
"Mary enjoyed the book.", it is not possible that the chatbot knows that a book is a written material and can be read.
No LIM can understand that. The meaning can be understood only when the Machine is programmed.

```
DIALOGUE English chatbot, a Dialogue Question Answering System
With Automated Reasoning in Natural Language Patent U.S.8560305M1.
Providing probable and accurate answers to user questions.
Vers. 3.0, Copyright © since 2011 LANGSOFT - Switzerland
Type or paste a sentence to ask me or tell me and press Enter

Is mendicant richer than tycoon?
If you have another question or comment about richer,
I will answer it later. If you ask me,
probably Mendicant is richer.
```

Without understanding the meaning of the input sentences the chatbot will not know that the tycoon is richer than a mendicant.
By saying probably, the chatbot expresses doubt if the tycoon is still richer after the present AI hype.

```
